FOREWORD

The following is the First Vital Statistical Report to be put out by this Office since its establishment in 1968. It is our attempt to make available the necessary data for planning and programming purposes, as well as for the sake of having the same at hand.

Tables on births, deaths, and fetal deaths were compiled from certificates submitted by the Record Office of the Medical Department, with the exception of the delayed registration of the same.

Tables on divorces and adoptions were compiled from information submitted by the High Court.

Population estimate for 1971 is based upon the U. S. Population Census for 1970, with adjustments for natural increase, and with due consideration for data submitted by the Immigration Office.

Tables included in this report will be modified and updated in our Second issue, 1972 report.

This report could not have been made possible without the help of our many friends in the above designated agencies of the Government of American Samoa; and their fine assistance is hereby gratefully acknowledged.

Special thanks to Mr. Carl H. Meeuwsen for his support and willingness to provide us with financial assistance, which made it possible to print the report.

And finally, the assistance of my good friend Judge Arthur A. Morrow in many ways making this report possible, is hereby appreciated.

F. V. Vaovasa
Territorial Registrar

SUMMARY TABLE FOR CALENDAR YEARS 1970 - 1971
AMERICAN SAMOA

Year	1970	1971	Rate Increase/Decrease
	27,159	28,309	
Population	27,159	28,309	4.1% +
Births	1012	1047	3.46% +
Deaths	146	135	7.5% -
Marriages	308	336	9.09% +
Divorces	44	28	36.36% -
Adoptions	172	305	77.33% +

* Population of American Samoa according to 1970 Census.

** Estimated population of American Samoa as of April, 1971.
The increase of 4.1% over a period of 1 year can possibly be explained by an increase of 3.46% birth rate, and a decrease of 7.5% death rate.

+ Rate of increase
- Rate of decrease
*** Fetal deaths are excluded
